

Car Transporter

February 2025 / Technical Offer

Car Transporter Semi Trailer

Two Axle / Six Car Capacity

Date introduced

July 30, 2024

Revolutionizing Car Transport

Efficiency, performance, and reliability redefined.

The 2-Axle Car Transporter Semi-Trailer is engineered to move vehicles with effortless precision, maximum safety, and intelligent adaptability. Whether it's a luxury sedan or a high-performance sports car, this trailer delivers a seamless transport experience, every time.

Chassis & Structural Integrity

Built for Strength. Designed for Longevity.

At its core, a high-strength S355J2+N steel chassis, hot-dip galvanized for exceptional durability. Advanced high-tech welding ensures a frame that is tough, yet lightweight, designed to handle the road with confidence.

Smart Hydraulic System

Effortless Adaptability. Maximum Control.

Experience seamless precision with advanced hydraulic technology. Advanced hydraulics deliver seamless precision with adjustable platforms, a 80-degree lift, powerful winches, and intuitive control for effortless operation.

Precision Engineering at Every Turn

Axles & Suspension: 10 Tonnes capacity TRAX , Gigant, Saf or BPW drum axles, air suspension, and International-compliant drum brakes for superior control.

Advanced Electrical System

Illumination. Safety. Connectivity.

- Fristom LED Dynamic Stop Lights, 2x7-pin sockets, and NATO-standard 24V connectivity.
- Smart signaling system, including rear safety warning lamps and high-visibility LED indicators.
- Integrated night LED lighting, enhancing visibility in all conditions.

Intelligent Control Power Management

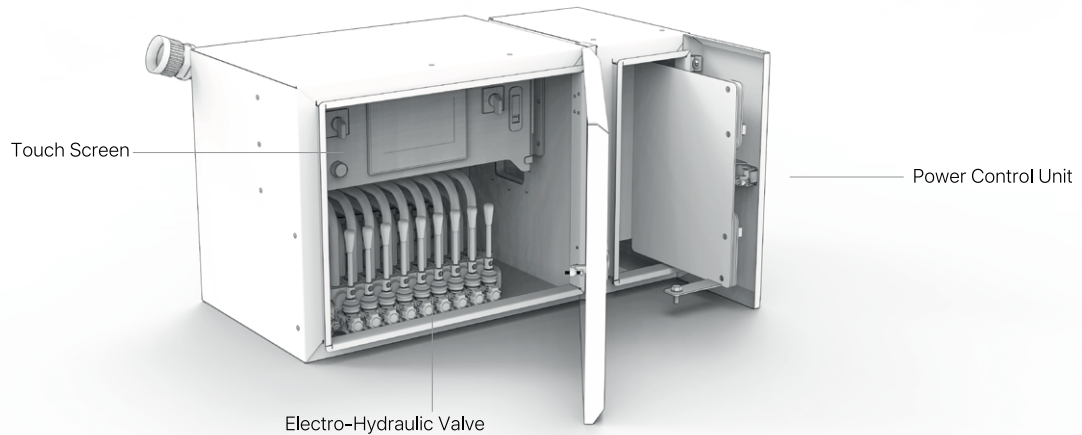

Precision Control. Seamless Operation.

- Bucher Powerpack 4.3kW system, featuring a 70L oil tank, PLC-controlled Tele-Radio remote, and intelligent hydraulic management.
- Seamless precision with STU Control Software. Effortless remote assistance, adaptive settings, and total control at your fingertips.

**Not just a trailer, an evolution in transport technology.
Built for strength. Engineered for precision. Designed for you.**

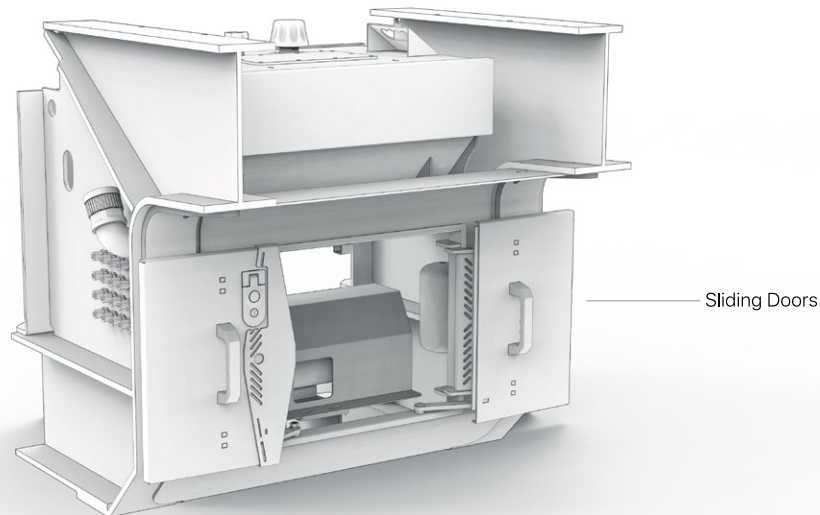

Innovation, reimagined.

Seamless Control. Ultimate Performance

A whole new user experience, redefined. Fully electronic hydraulic valve. Precision remote control. An intuitive touch display. All powered by an advanced Power Control Unit.

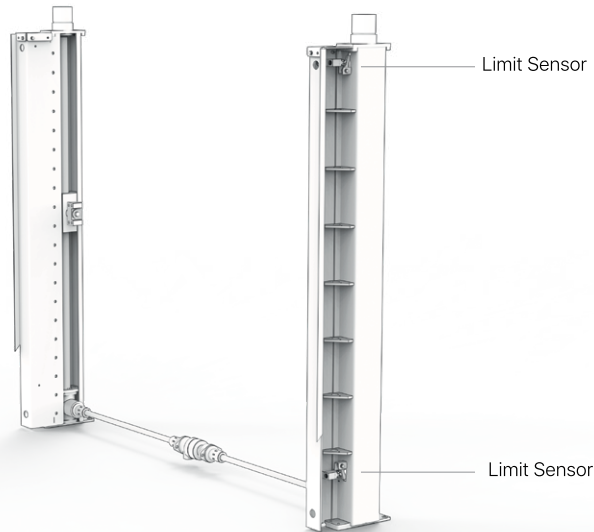

Slide. Access. Maintain.

Effortless access, anytime. The side-sliding power unit covers give you the space you need even when attached to a tractor. With the oil tank, filter maintenance, powerpack maintenance and connection hub all in one place, servicing has never been this easy.

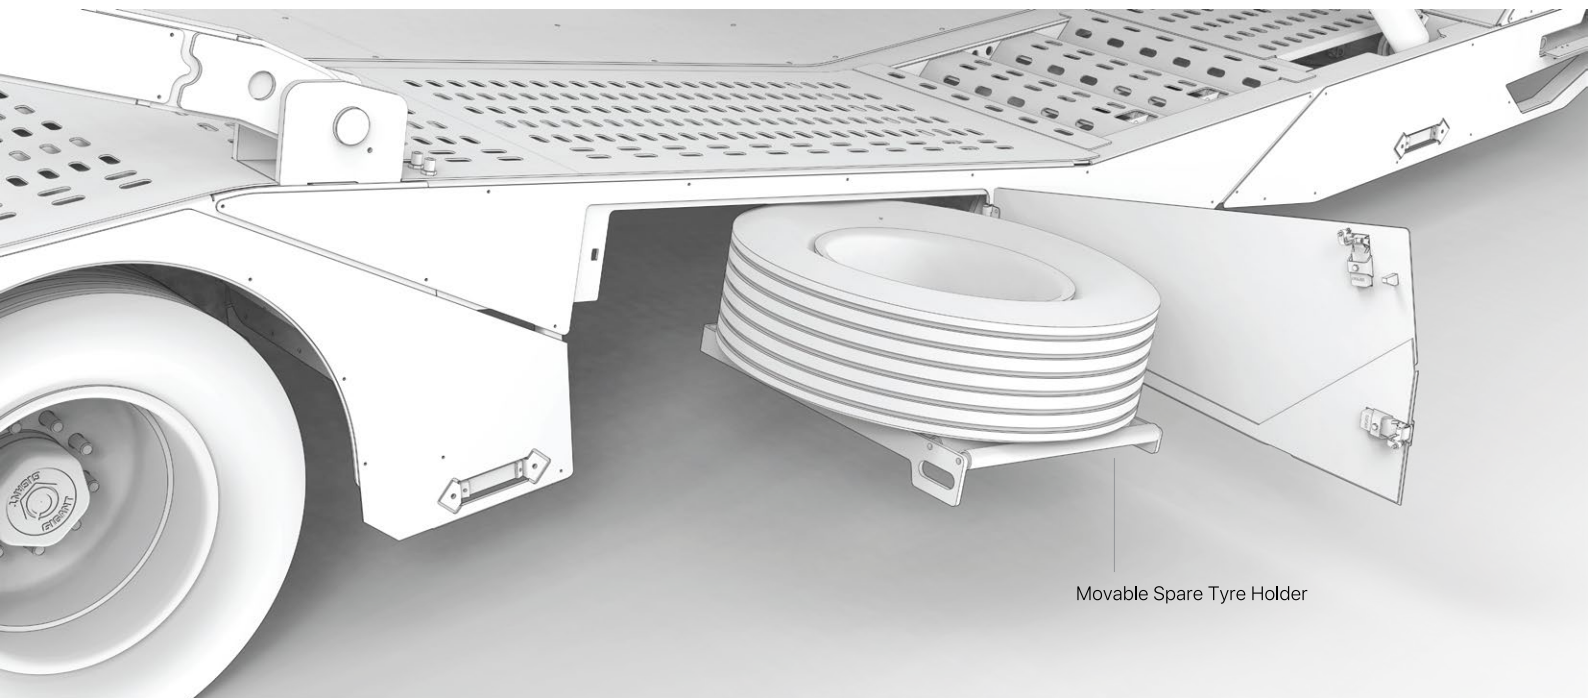

Innovation, reimagined.

Next-Level Safety. Zero Compromise.

Advanced electronic safety, built for protection.
Your platforms and spindle system stay secure,
shielded from strain and unexpected risks.
Working for you, every second. So you can focus
on what truly matters.

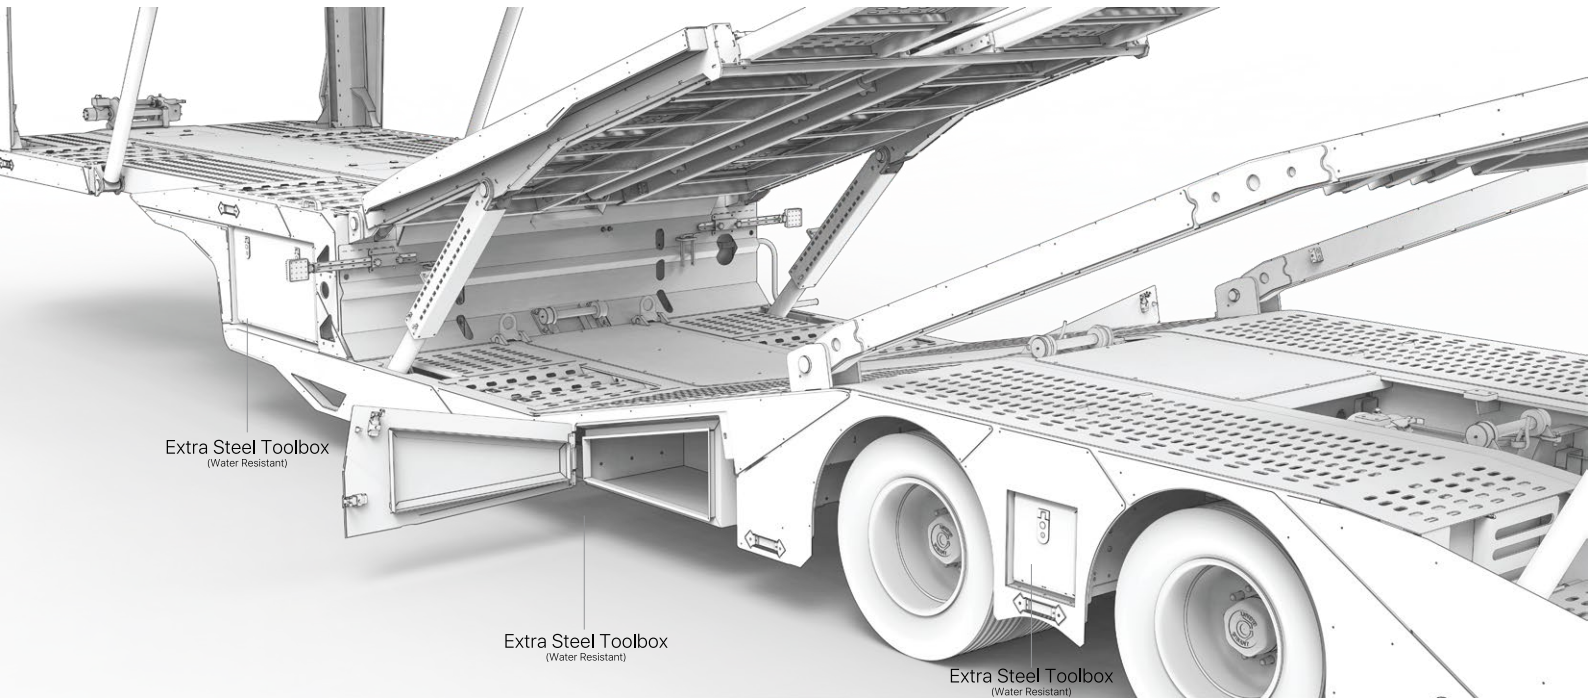

Always Within Reach

Changing a tire on tough roads? Now effortless.
A seamlessly designed access panel and smart
moving mechanisms ensure your spare tire is
always within reach. Less effort, more comfort.
Because every journey should be smooth.

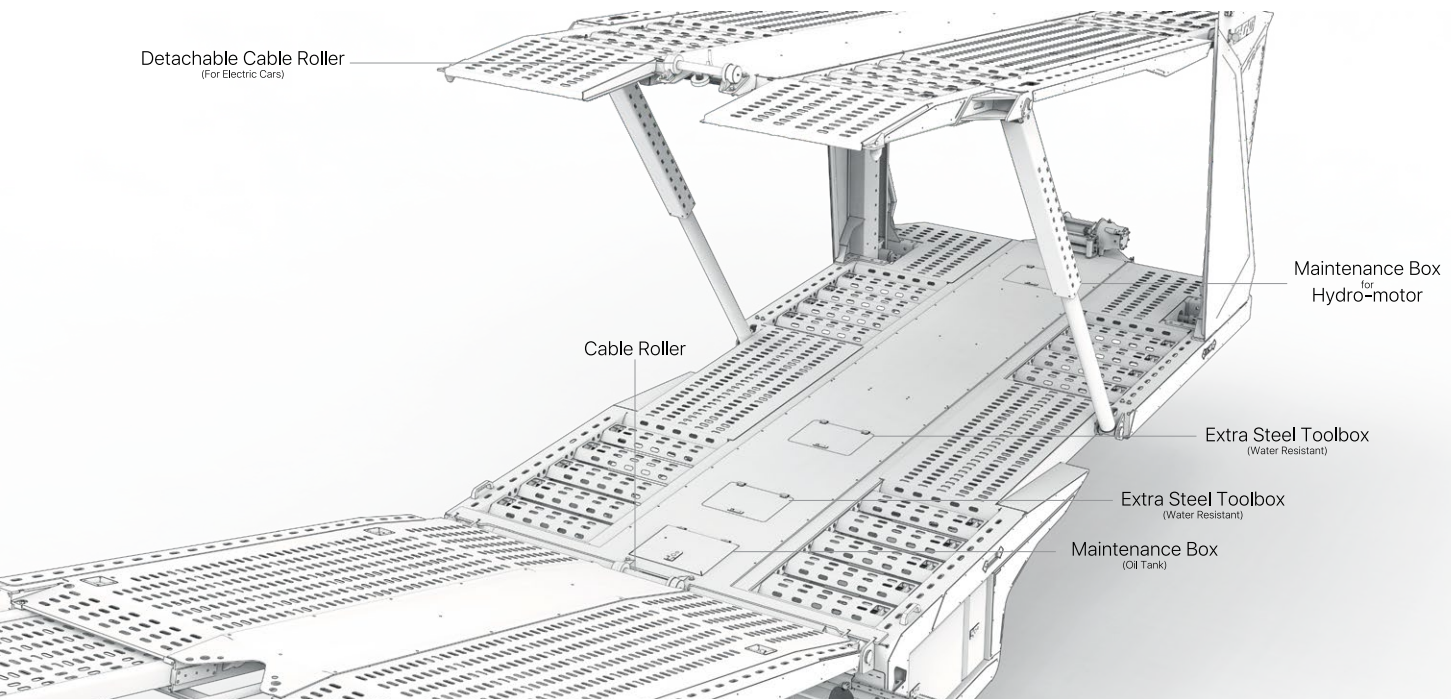

Innovation, reimagined.

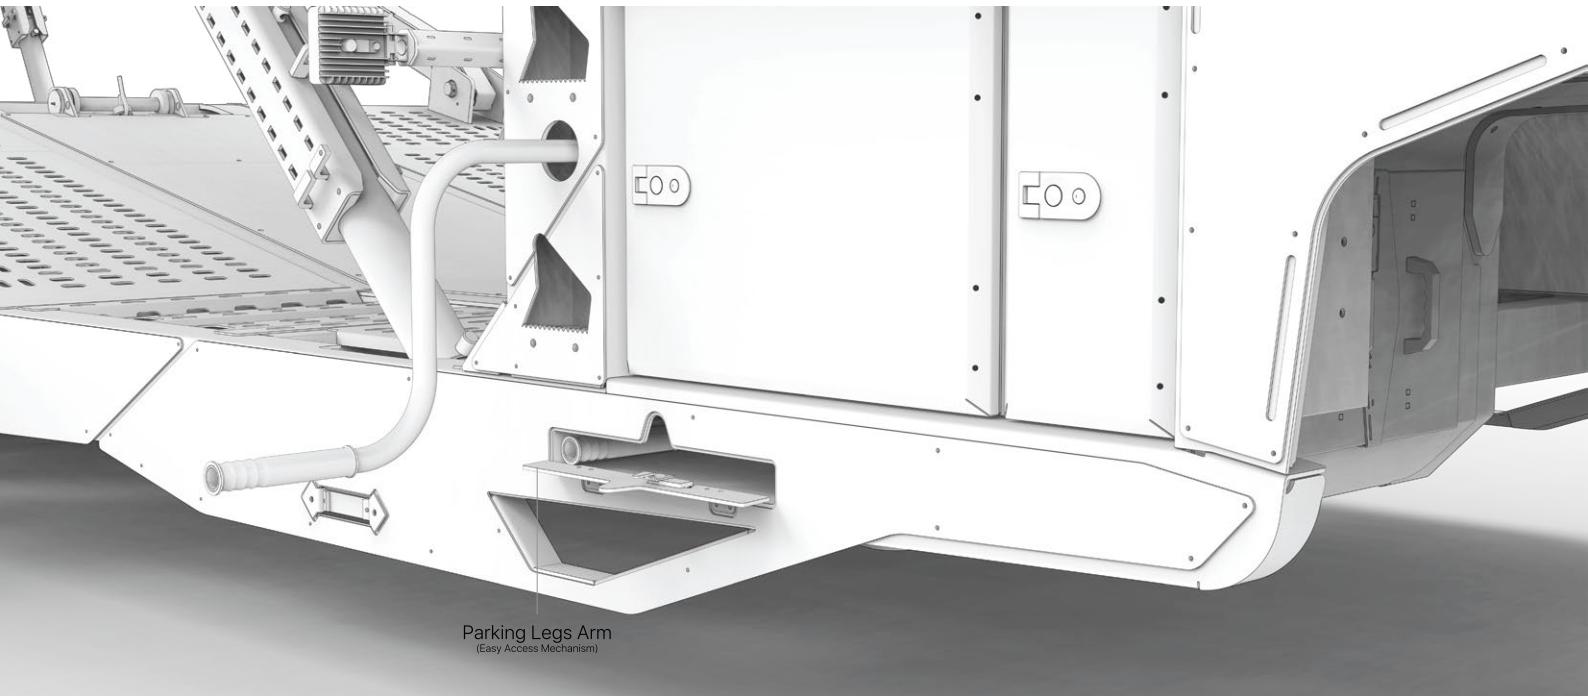

Tough. Reliable. Always Ready.

Secure. Durable. Always Ready. Water-resistant steel storage keeps your essentials safe in any condition.

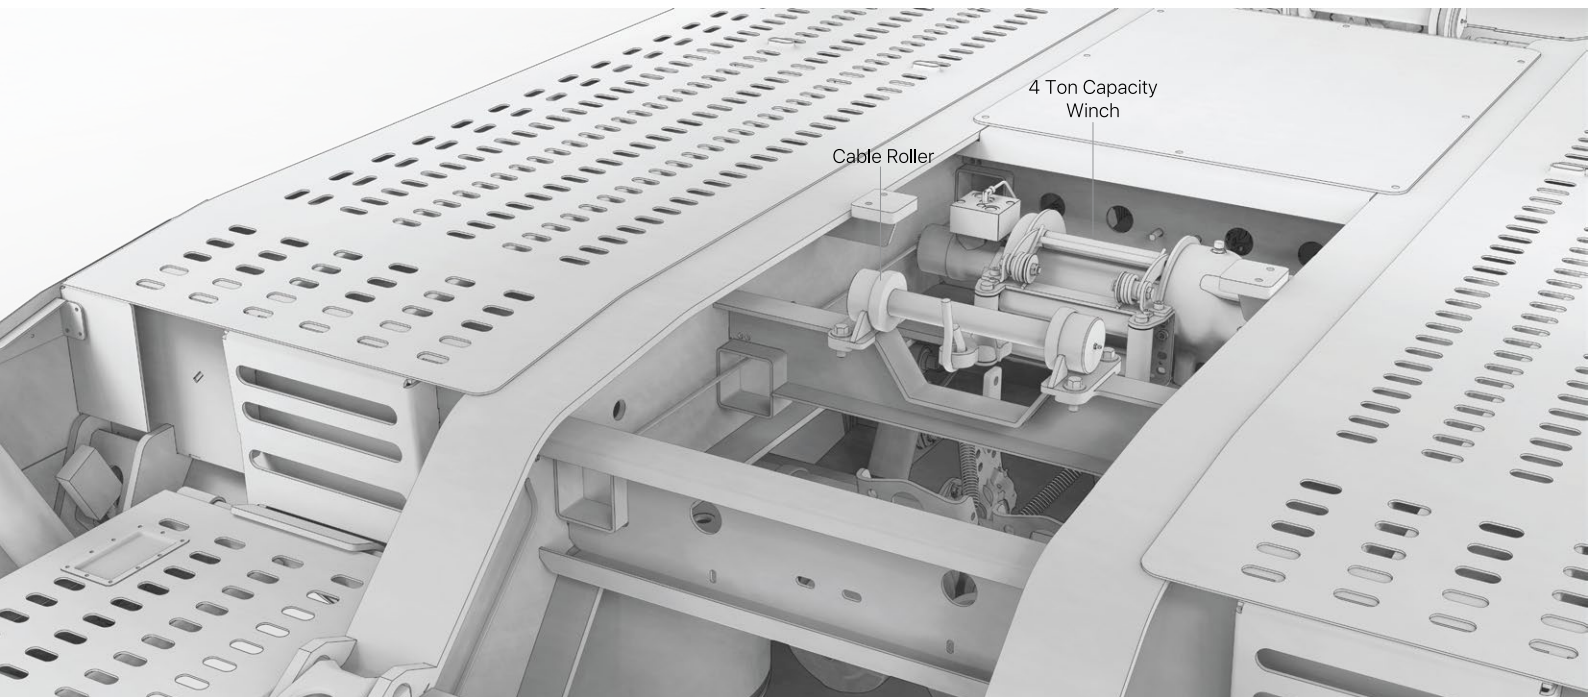

Innovation, reimagined.

Precision in Every Move

Smart details that make a difference. The parking leg lever locks into place securely when not in use. And thanks to the automatic push mechanism, releasing it feels effortless, maybe even a little satisfying.

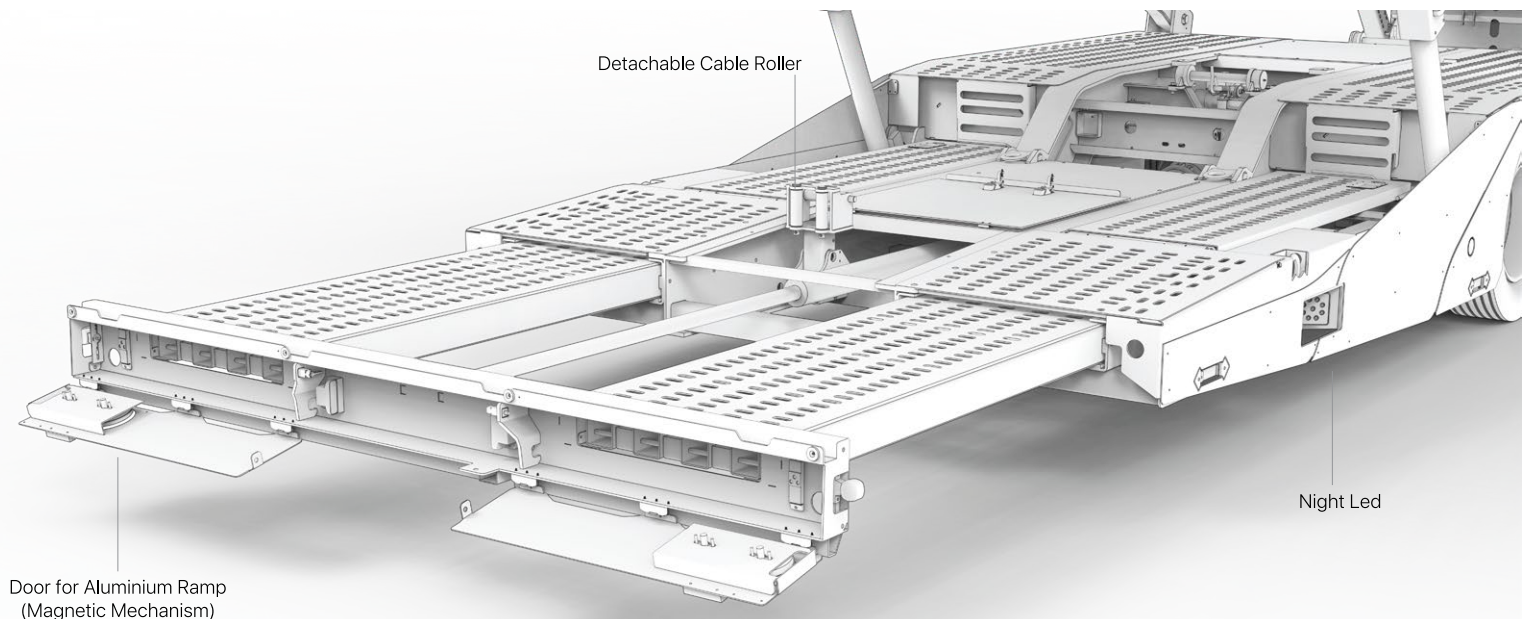

Load with Confidence. Work with Ease.

With bearing-equipped rope guides and powerful hydraulic winches at the front and rear, getting your vehicles onto the trailer is nearly effortless. Save time. Work smarter. Let innovation move you forward.

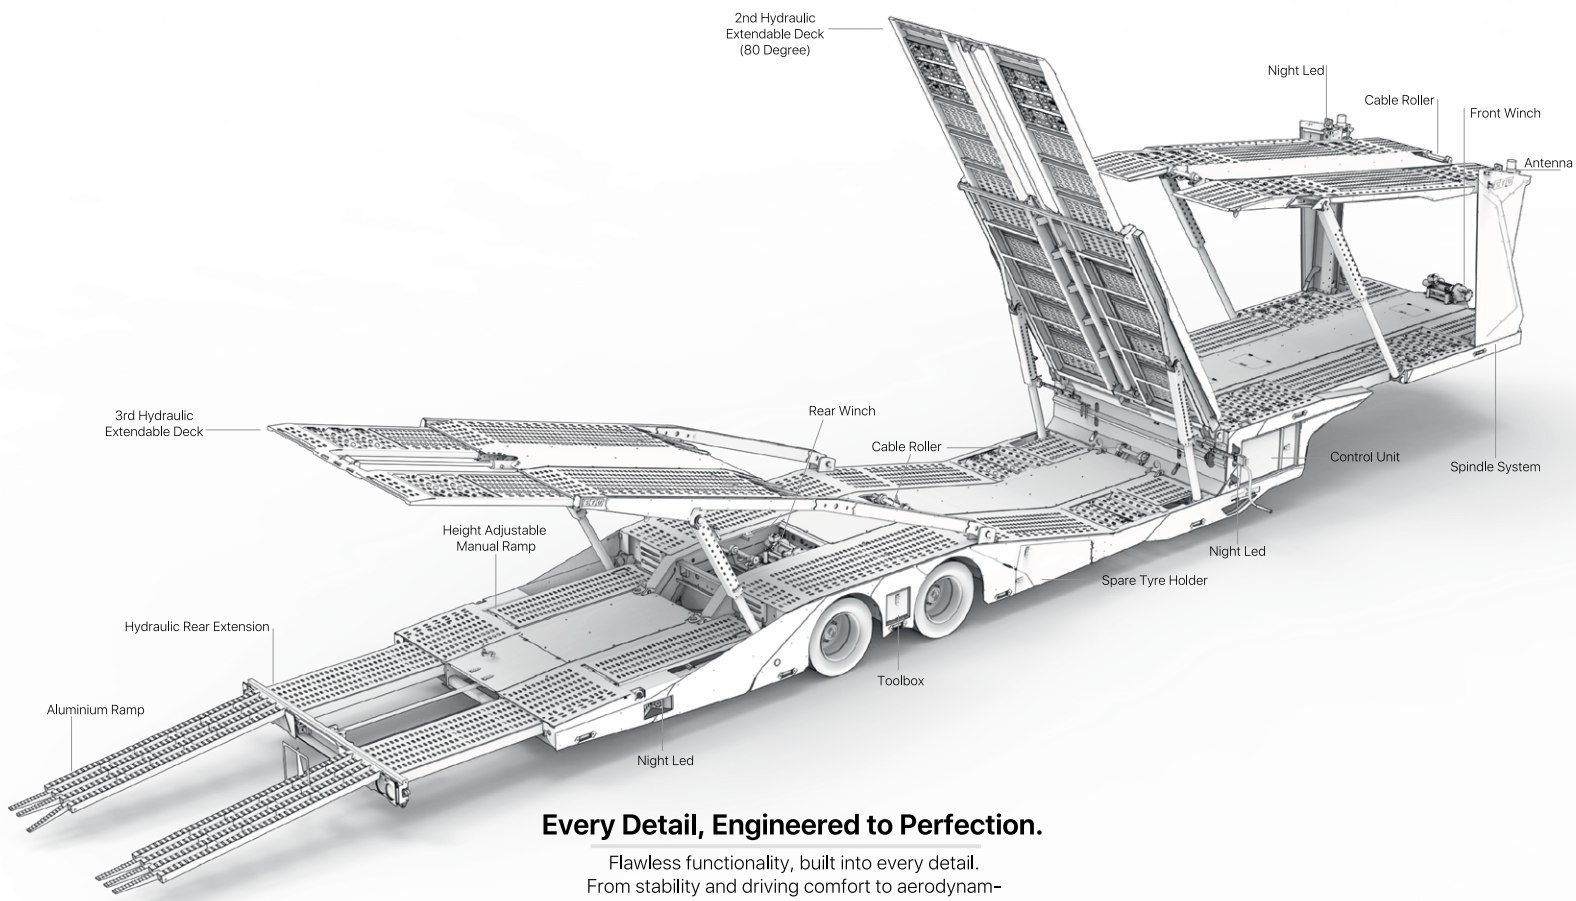

Innovation, reimagined.

Smarter Solutions. Smoother Workflow.

Smart features. Effortless operation. Magnetic rear ramp covers open smoothly, while adjustable winch rope guides ensure precision. Powerful lighting illuminates every workspace for night operations. And with intelligent add-ons designed to anticipate your needs, everything is right where you need it—before you even ask.

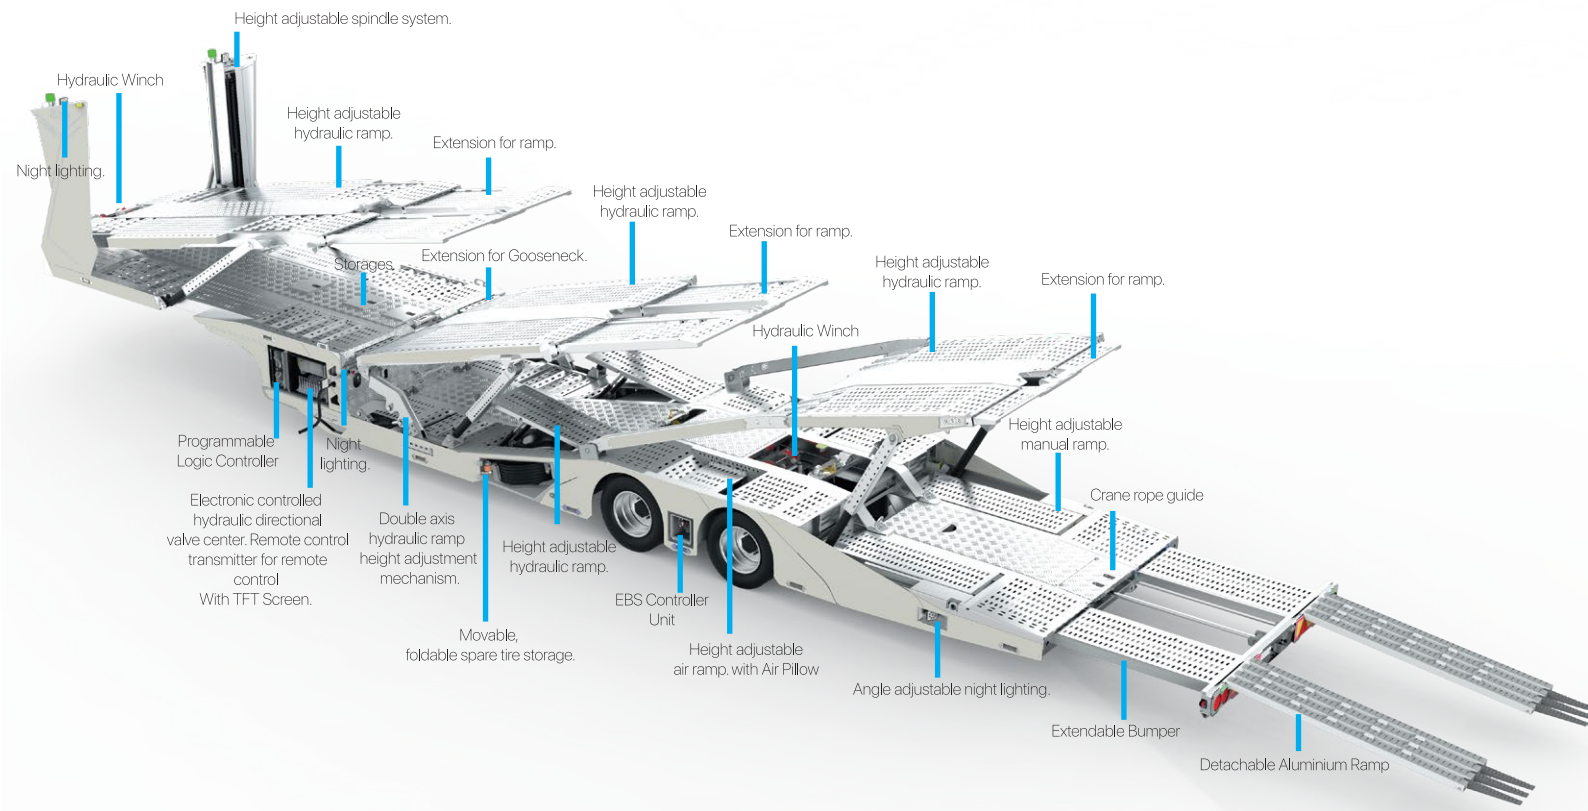

Every Detail, Engineered to Perfection.

Flawless functionality, built into every detail. From stability and driving comfort to aerodynamics and seamless loading, technology is at the heart of every move.

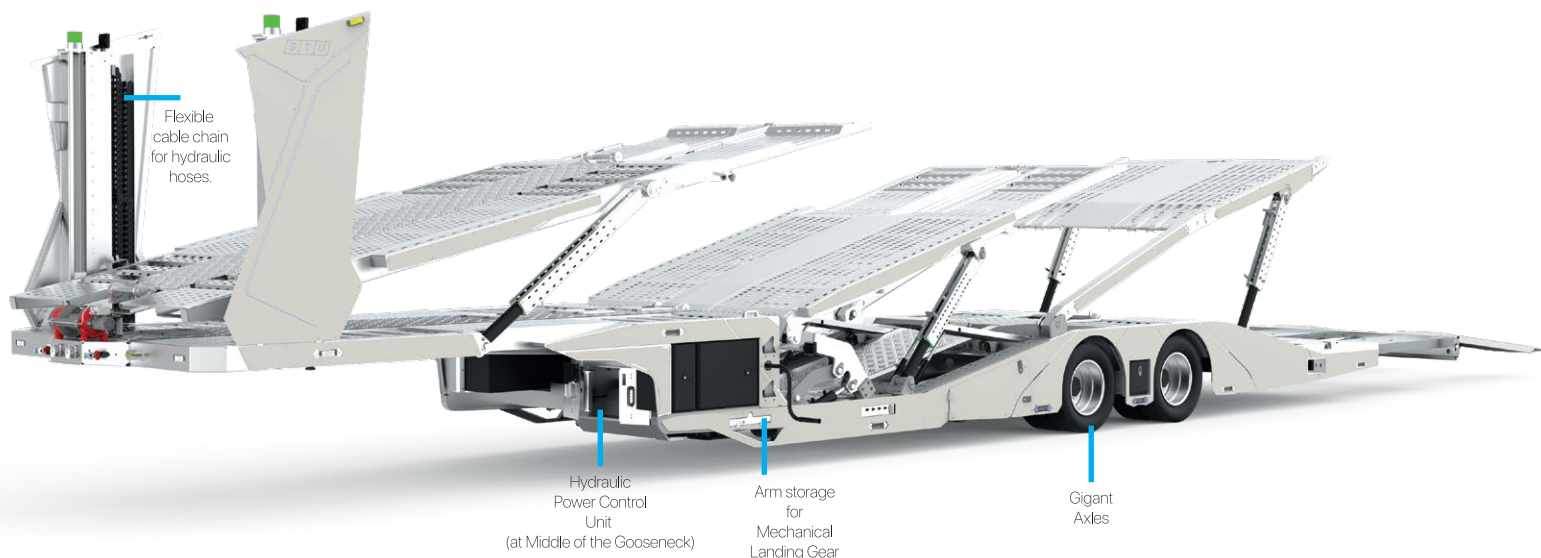

Options? You've got them.

Your needs. Your vision. Your way. The perfect vehicle, tailored just for you.

Your imagination is the only limit. Customization and options are always here for you—ready to adapt, evolve, and become exactly what you envision. Just share your needs, your dreams, and we'll turn them into reality. The perfect vehicle, built just for you, exactly the way you want it.

Pricing & Payment Terms

Transparent Pricing. Flexible Solutions.

We believe in clarity, simplicity, and delivering the best value. Below, you'll find the pricing details tailored to your needs:

☐ **Total Price:**

☐ **Delivery Time:**

Seamless Payment Options. Designed for You.

We offer flexible payment solutions to ensure a smooth and effortless experience:

Initial Payment: 50% upon order confirmation

Final Payment: 50% upon delivery

☐ Accepted Payment Methods: Bank Transfer

No Surprises. Just Confidence.

With our transparent approach, there are no hidden costs—just a seamless, straightforward process from start to finish.

This offer is valid only 15 days, Please after 15 days later ask again for the new price and delivery time.

☐ **Have Questions? We're Here.**

If you need any adjustments or have any questions, our team is always ready to assist.

Your vision, our commitment. Let's make it happen.
